About Surepak

Since 1987, Surepak has evolved from specialising in builders' film to now having in excess of 750 product lines and continually growing.

We strive to deliver high quality service and solutions. By doing so we have become a leading distributor of packaging products, packaging materials, specialist bags, plastic films and more.

Our extensive range of products allows us to service a range of industries Australia wide including medical, food, marine, waste, mining, construction and more.

With 32 years' experience and knowledge within the flexible films and packaging industry we pride ourselves on being able to assist with all our existing and future customer needs.

We take pride in our ongoing commitment to quality and customer service. As an industry leader, our experienced team is on hand to source specific products and to provide the most effective packaging solutions.

Surepak has offices located in Melbourne, Sydney, Brisbane and Perth, which gives us the ability to distribute orders fast and efficiently Australia wide.

Remember our motto -
quality, service and solutions

Contents

Products

Our products are backed up by prompt service and attention to detail. Together with our knowledge and expertise gained over the years, we are able to direct our customers to the best packaging solutions for their requirements.

Surepak is committed to minimising the impact of its products on the environment.

The key points of our strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling, both internally and amongst its customers and suppliers.
- Source and promote a product range that minimises the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.

Remember our motto -
quality, service and solutions

DOUBLE SIDED TAPES

Surepak double sided tapes are typically used for fixing, bonding, joining and laminating. They are a great alternative to traditional fixings such as screws, bolts, rivets, and staples. Our range of double sided tapes include:

• Cloth
• Butyl
• Foam
• Very High Bond (VHB)

We stock a range of sizes, however if we don't have the size you need then other sizes and thickness are available on request.

Double Sided Tapes – Butyl

Butyl double sided tape has strong adhesion, sealing caulking quality and is available in both white and black.

SUREPAK CODE	DESCRIPTION	SIZE (WIDTH X LENGTH)	MICRON (THICKNESS)
TSCHK5929	Black Butyl Tape	24mm x 20m	45um

Duct Tapes

Surepak stock leading brands of duct tape to suit every application. With our variety of colours and high quality we're able to provide duct tape to suit your needs.

Duct tape can also be known as joining tape.

Duct tape/Joining tape is a PVC pressure sensitive tape generally used in the air-conditioning, plumbing or construction industries.

We have both general purpose duct tape and premium duct tape available.

General Purpose

SUREPAK CODE	DESCRIPTION	SIZE (WIDTH X LENGTH)	MICRON (THICKNESS)	CTN QTY
TDUCT	Duct Tape - Silver	48mm x 30m	13um	36

TDUCTBOOMB	Duct Tape (Heavy Duty) - Black	48mm x 30m	16um	60

Electrical Tapes

Electrical insulation tape is generally used for insulation or colour coding electrical works.

Our electrical tape is flexible and flame retardant. It is suitable for general purpose application.

All our electrical tapes meet Australian standards (AS1621-1988).

SUREPAK CODE	DESCRIPTION	SIZE (WIDTH X LENGTH)	MICRON (THICKNESS)	CTN QTY
TSCHAT7	Electrical Insulation Tape (Blue, Black, Green, Red, White, Yellow)	19mm x 20m	15um	250

Filament Tapes

Surepak stock leading brands of filament tape to suit every application. With our variety of sizes and high quality we're able to provide filament tape to suit your needs.

Our filament tape has pressure sensitive adhesion and is ideal for sealing, bundling and reinforcing packaging.

We have filament tape available in one-way or two-way cross weave.

SUREPAK CODE	DESCRIPTION	SIZE (WIDTH X LENGTH)	CTN QTY

TSCHB670-48	Premium Two Way Filament Tape	48mm x 45m	24

Aluminium Foil Tapes

Aluminium foil tape is designed to cover all key application areas where high temperature resistance and electrical or thermal conductivity is required.

Our reinforced foil tape (with liner) is AS1530.3 approved and used a pressure sensitive acrylic adhesive suitable for temperatures between 20°c and 110°c.

This high strength aluminium foil tape can also be hand torn for easy use.

Our plain aluminium foil tape (with no liner) is perfect for general purpose use and is ideal for use as a sealing and heat reflective tape.

The rubber adhesive provides strong adhesion.

SUREPAK CODE	DESCRIPTION	SIZE (WIDTH X LENGTH)	MICRON (THICKNESS)	CTN QTY

MEDICAL AND HEALTH INDUSTRY

Surepak stock medical waste bags to suit every application from retail use to wholesale use and more. With our wide variety of sizes and high quality we're able to provide medical waste bags to suit your needs.

Our medical bags are manufactured using high impact linear low density polyethylene resins and organic colouring. We believe that with the use of high impact resins, the gauge of the medical waste bags can be reduced with no loss of film quality, bag performance or seal integrity.

From an environmental point of view, we believe the advantages of our bags are:
• General reduction of plastic in the waste stream
• Total bag weight reduced, with a consequent saving in incinerated waste
• Increased film and seal integrity

We should add, the colour additives for these bags are organic i.e. lead and cadmium free and after incineration do not leave any heavy metal residue.

Our range of medical and health industry products include:
• Bags   • Sharps Containers
• Specimen Bags   • Protective Wear

Surepak is a major supplier of medical waste bags to hospitals and medical services throughout Australia. Being a preferred supplier of medical waste bags, our bags are currently used by hospitals, medical centres, collection facilities and more.

DID YOU KNOW?
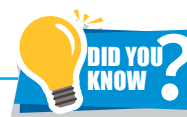

Our bags are used by some 100+ hospitals, medical centres and doctors throughout Australia.

Films

FILMS

Surepak supply a vast range of polyethylene films in many different widths and thicknesses across many industries.

Our core range of films are:
• Builders Film
• Lay flat tube
• Shrink Film

If the product is not a stocked item, we are happy to discuss making it for you.
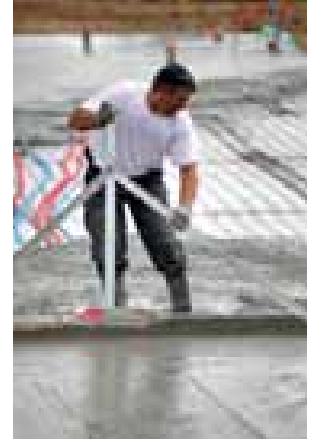

Builders Film

Surepak have been supplying builders film to a range of industries for over 32 years. We stock builders film to suit every application. With our wide variety of sizes and high quality we're able to provide builders film to suit your needs.

Our builders film meets Australian standards for medium impact requirements.

Builders film is widely used in the building and construction sector as well as the demolition and asbestos removal industry.

We supply builders film in 50um, 100um, 200um or 300um. With widths ranging from 2m to 4m.

High impact film is also available on request.

White Shrink Film

Surepak stock white shrink film to suit every application. With our extensive range of sizes and high quality we're able to provide white shrink film to suit your needs.

The film is made from a blend of low density and linear low density polyethylene.

Our shrink film has been specially made with the marine and mining industries in mind. It has been coloured white to reflect the heat that can be generated inside.

UV treatment allows for prolonged storage outside.

Whether it is protecting your vessel from damage against the elements or meeting quarantine standards for machinery, Surepak has you covered!

DID YOU KNOW?
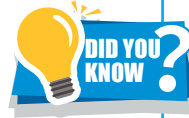

Surepak stock a large range of other shrink products:
• Shrink Tape
• Zipper Doors
• Heat Guns
Please refer to our Tape and Warehousing section of this catalogue for further details.

Protective Clothing – Shoe and Sleeve Covers

Our sleeve protectors are made from polyethylene. They provide coverage from your wrist to elbow. Sleeve protectors help ensure no gap between glove/arm and keeps loose sleeves out of the way.

Sleeve protector uses include:

- Food manufacturing and processing
- Laboratories
- Industry/manufacturing

- Fisheries, poultry and meatworks
- Medical
- Cleaning

Our shoe covers have a latex anti-skid tread on the sole, ideal for providing a barrier between footwear and the environment.

Shoe cover uses include:

- Nurses/Medical staff
- Protection for floors, carpets, tiles against dirt and grime
- Maintenance/cleaning
- Medical

- Laboratories
- Food manufacturing and processing
- General industry
- Pharmaceutical

Our boot covers are designed in a generous size equipped with ankle ties for a secure fit, making them easy to put on over boots.

Boot covers have a vinyl non-skid sole that provides a protective barrier between footwear and the environment, keeping floors clean from contamination and eliminating the need to remove street footwear.

Boot cover uses include:

- Asbestos removal/demolition
- Laboratories
- General industry
- Medical

- Nurses/Medical staff
- Food manufacturing and processing
- GMaintenance/cleaning

Stretch Film & Pallet Wrap

STRETCH FILM

Surepak stock an extensive range of stretch film or Stretch Wrap as its sometimes known. Stretch film is a highly stretchable plastic film that is wrapped around items. The elastic recovery (memory) keeps the items tightly bound. It is frequently used to unitize pallet loads but also may be used for bundling smaller items. Our stretch film is available in both hand and machine grades to suit your automated or manual wrapping solutions. Available in 500mm width rolls and in various gauge sizes our range of Surewrap and SurewrapMax films will have your needs covered!

Bundling Film

Surepak stock clear surewrap bundling film in 20um which will suit all general purpose applications.

Surewrap bundling film is a quick and easy way to wrap/bind small or long items whilst also being cost effective/economical.

Surewrap bundling film features include:
• High clarity   • Quiet unwind   • Water and dust resistant

Surewrap bundling film hand applicators are also available and make bunding easy! With the rotating hand/grip you can wrap small or long items quickly and smoothly.

Our surewrap bundling film comes in 100mm x 250m.

SurewrapMax Hand Stretch Film

Surepak stock surewrapmax stretch film to suit every application.
With our wide variety of thicknesses, we're able to provide you with stretch film to suit your specific requirements.

Surewrapmax stretch film is a state-of-the-art film ideal for all your wrapping solutions

Features include:
- High performance film that uses state of the art resin technology
- Cost effective alternative to conventional cast/blown film
- Is easily hand-stretched with 30-50% tension at stretching point
- Weighs less than conventional film rolls and is less tiring to apply
- Uses up to 20% less film per pallet wrapped and reduces environmental impact

Our surewrapmax stretch film is available in 12um, 15um and 20um thicknesses.

How does it work?

1 Attach the film to the load and stand about 250mm away while you wind it

2 Let the film unwind freely until you reach the point (before the container) where you need to apply tension

3 Hold the film parallel with the corner of the pallet before you lock it off with the palm of your hands or thumbs.

4 Stretch the film about 30-50% (feel it in the tension) before wrapping around the corner
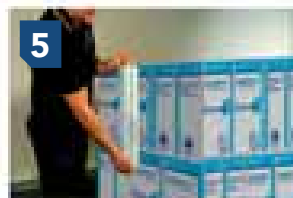

5 After stretching the film, step around the corner with tension still applied to prevent puncturing or tearing. Then release and let the film freely unwind.

Others 1 roll =
23μm x 500mm x 209 Meter

MAXSTRETCH 1 roll =

X-treme

PSW25M	Clear Machine Surewrap 25	500mm x 1305m	25um	1

Surewrap Machine Premium

Surewrap Premium stretch film is the next generation stretch film, and it is just 33 layers "thin". The multiple layers may sound too thick for ones liking, but because of it's nano nature, it's incredibly "thin" yet tougher in so many ways compared to the many standard films in the market. It has excellent puncture and tearing resistance similar to the likes of "plywood effect", where safety of loads are never compromised. With Surewrap Premium, less film is needed to secure a load properly and the packaging costs are significantly lowered.

- Designed to perform at higher wrapping speeds
- Stretches further than 400%, which is far superior to traditional cast stretch films
- Cost savings and waste reduction due to its high stretch and thin gauge
- It has higher Machine Direction (MD) and Transverse Direction (TD) tear resistance compared to normal cast stretch films, for great load stability and safety
- Surewrap Premium is available in 15um, and 20um thickness
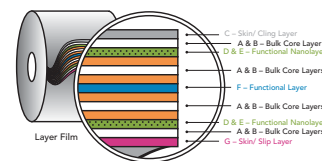

SUREPAK CODE	DESCRIPTION	SIZE (WIDTH X LENGTH)	MICRON (THICKNESS)	CTN QTY

Surewrap Secure Machine Stretch

Surewrap Secure stretch film is an incredible Secure Load Solution. Perfectly designed to adapt to most of the new and old arm and turn-table wrappers currently in the market able to stretch from 150% - 200%.

- Cost Saving and high holding force with thinner gauge
- Quality is consistent and high traceability
- High tear resistance
- Surewrap Secure is available in 14um and 17um thickness

Surewrapmax Machine Stretch

Surewrapmax machine stretch film is a state-of-the-art film ideal for all your wrapping solutions.

Our surewrapmax machine stretch film is available in 12um, 15um and 20um thicknesses.

Features:
• High performance film that uses state of the art resin technology
• Cost effective alternative to conventional cast/blown film
• Is easily hand-stretched with 30-50% tension at stretching point
• Longer roll lengths on each roll
• Uses up to 20% less film per pallet wrapped and reduces environmental impact
• Offers the same performance as higher gauge films at a significantly lower cost
• Film does not neck down when stretched so your pallets are wrapped faster
• Great puncture strength means sharp edges wont ruin your wrap

Stretch Film Machines

The ORBITWRAP OR-1000 and OR-2000 has been designed and built with economy, efficiency and safe operation in mind. These stretch wrapping machines will give you all of the features you need to wrap pallet loads quickly and efficiently. The OR-2000 can dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping due to the powered pre-stretch feature.

Features:
- Eliminate the need for labour intensive, inefficient manual hand wrapping.
- Rugged steel construction for long-term reliability.
- Photocell eye for automatic height detection.
- Forklift relocation slots for easy machine transportation.
- Automatic and manual wrapping programs.
- Includes ramp for pallet truck access.
- User friendly 'Soft Touch' controls.
